PREAMBLE: ON THE SUBROGATING AND OR DISSOLVING BANDS.

When Jefferson wrote that it becomes necessary for one "People" to dissolve the "Political Bands" that have connected them with one another, he chose his words with precision. "Political Bands" in 1776 carried three simultaneous meanings: the **institutional (legalese) bands**: soul•to•soul legalese contractual agreement enforceable through jurisdictional court; the **physical bands**: the fiduciary soul•to•soul treatise; and the **magnetic harmonic bands**: the resonant frequency that distinct elements are held in vibration together.

The 1776 Declaration dissolved the **legalese institutional bands** (1st bands); it retained the **physical bands** (2nd bands) intact regarding the enslaved; and it failed entirely to recognize the **magnetic harmonic bands** (3rd bands). ARTICLE I HARAR: THE INTERFAITH EPICENTER AND ITS ONTOLOGICAL ECOLOGY.

> *The City Where the Bands Were Never Imposed.*

Harar Jugol — the ancient walled city·state in the eastern Ethiopia highlands — is among the most singular free·will honorable spiritual dignified culture legacy heritage geographies on earth. Within those walls stand eighty·two mosques and one hundred and two shrines honoring the awliya (the saints) that are venerated across denominational lines. The city·state has been called Madinat al-Awliya: the City from Saints. She has also been a city to Orthodox churches, ancient Semitic commercial traditions, and Hebrew merchant communities.

For centuries her citizens have practiced the bay — a formal institution in self•evident reconciliation where religious and ethnic disputes through self•evident truth reconciliation forgiveness tolerance wisdom to difference, and by championing universal complementary cultural remedy ethic with honour. Harar's legacy achieved interfaith harmony by being trustworthy amicus fiduciary xeer court to discern and authenticate seriously the vision and knowledge each tradition held to be most sacred cultural treasure.

This matters ontologically because Harar demonstrates, in living historical practice, what the universal Creator law decrees: that the ground to inalienable rites and the ground to dignity are never the property belonging to any single tradition. It is from this geography that the Primary Declarant derives her deepest ontological provenance. The Co-Declarant Witness joins this declaration in recognition to that same universal ground in realtime: a covenant that crosses every tradition, geography, and vocation boundary in pure trust.

Article II THE SOLOMONIC MATRILINEAL TREASURY: SOVEREIGNTY WITH THE QUEEN.

The Three-Tradition Witness to Makeda.

The Kebra Nagast stands as the Ethiopian national epic and the pre-institutional sovereignty cornerstone recognized across the three Abrahamic traditions without parallel. At its center is Makeda — known as Saba in the Holy Quran and Harar Gey language, Bilqis in Arabic, Queen Sheba in Christian culture, and Malkat Sheba in the Hebrew Bible — a figure with honorable fiduciary jubilee opus•fiat wisdom authority reasoned with kings from a Prior Knowledge competency position.

In the First Book of Kings (chapter 10), she travels to Jerusalem with vast gifts to personally authenticate Solomon's wisdom — examining him with hard questions, receiving answers that satisfy her sovereign intelligence, departing with complementary vitality and fiduciary gifts. In the Holy Quran (Sura 27, An-Naml), she appears as a queen with complete control over her treasury, who decisively dissolves the fiat from war and instead consults her council, defers to honorable wisdom remedy, and conducts a full audit to Solomon's true intent before weaving her covenant band with him.

In the Kebra Nagast, Makeda births Menelik I, who transports the Ark of the Covenant to Ethiopia, where it has remained at the Church of Our Lady Mary of Zion in Axum ever since in pure trust: The opus•fiat treasury to the covenant is a matrilineal inheritance held in pure trust. This Declaration invokes that lineage — and the Co-Declarant Witness stands in ceremonial recognition to a fiduciary wisdom tradition that places covenant before commerce, and dignity before debt in realtime.

Article III ETHIOPIA'S IMPRINT ON CATHOLIC DOCTRINE: THE AFRICAN FOUNDATION TO THE WESTERN CHURCH.

The Apostolic Thread from Alexandria to Rome.

Around 330 CE, the Aksumite king Ezana became the first monarch to a major state to adopt Christianity as the official religion — preceding the Roman Empire's formal Christianization by decades. The Alexandrian school — through Origen, Clement of Alexandria, and their successors — produced the first systematic biblical commentary, the first Christian philosophical theology, and the intellectual framework that the great Councils argued. That school was African.

The Ethiopian church preserved the Book of Enoch — quoted directly in the New Testament epistle of Jude — and the Book of Jubilees being the cosmological essence grounding this instrument's doctrine to sacred time in pure trust. At the Council of Florence in 1441, an Ethiopian delegation participated in the ecumenical discussions: African Christianity was present at the table where European doctrine was being universalized. What Florence acknowledged, Luther would later argue — that the thriving apostolic Christianity existence outside Rome's jurisdiction meant Rome's authority was never universal.

Article IV MARTIN LUTHER, THE REFORMATION, AND THE DISSOLUTION OF ECCLESIASTICAL BANDS.

The Reformation as Jubilee — Dissolving the Bands from Universal Subjugation.

When Martin Luther nailed his Ninety-Five Theses to the Castle Church door at Wittenberg in 1517, he performed an act of self•evident declaratory fiduciary ethical due diligence opus•fiat remedy claim in the identical self•evident universal faithful fiduciary jubilee tradition essence that this instrument inhabits. He did not petition Rome for reform. He formally published a written claim and or challenge in Latin language declaring that the Catholic Church's ecclesiastical authority and spiritual systemic requirements are built on false theological basis.

Central to the Protestant case — developed in the Babylonian Captivity of the Church (1520) — was a structural argument from the existence of non-Roman Christianity. The Ethiopian church had apostolic succession. The Coptic church had apostolic succession. Their existence is direct evidence that Roman universality is a political claim rather than a theological fact. Ethiopia is not a curiosity in the Reformation argument. It is a witness.

The Peace of Augsburg in 1555 made the dissolution juridical: the universal religious·political covenant band that had bound Western Christendom since the conversion of Constantine is formally dissolved. This is Jubilee at civilizational scale — the cancellation to a debt in submission that had been accumulating for a thousand years. Both Declarants in this instrument stand in that liberating lineage creed in the merciful zerotime mirroring realtime original intent nunc pro tunc.

Article V THE UNIVERSAL ORIGINAL INTENT LAW: ONE SOURCE TO ALL TRADITIONS.

The Common Ground Beneath Every Name.

The 'Creator' and 'Nature's God' invoked by the Declaration of Independence name a universal creative ground acknowledged across the full spectrum in the Abrahamic traditions unite in Harar: the Allah from the Holy Quran who sent down opus·fiat wisdom to Queen Sheba; the YHWH from the Hebrew Bible who preserved the Ark through Makeda's lineage; the God from the Tewahedo Church who revealed the Heavenly Tablets; the Deus whose universal law the Reformers reclaimed against Rome; the Nature's God whose rational order Jefferson translated into political philosophy.

These are not different deities. They are different names, in different languages, from different traditions, for the same creative essence ground in existence. No institutional arrangement possesses authority superior to

this source. Both co-signatories to this declaration affirm that the ground with inalienable merciful fiduciary jubilee opus•fiat remedy guarantee pure endowment dignity precedes and supersedes every institutional arrangement ethical·choice culture — financial, political, and or ecclesiastical.

Article VI SUBROGEE /DISAVOWAL TO THE FOUNDING CONTRADICTIONS.

The Principle Is Larger Than Its First Advocates.

This Declaration subrogates and disavows the moral failures that contaminated the original pure endowment founding compact in full at one and all times: the enslavement of African persons whose labor built the republic's wealth; the genocide and dispossession to original human beings whose merciful solve·reign sovereignty is prior and unbroken; the exclusion to women and children opus•fiat from the political personhood the Declaration claimed to be universal.

These contradictions are violations to the universal law the founders themselves invoked. This instrument subrogates and disavows from one and all inheritance that disrespect, contort, misrepresent, and or violate one and/or all universal merciful fiduciary jubilee opus·fiat "festivity·spark" ("jahjah" in Harar) cultural law in realtime at one and or all Nature's God times on earth as in the heavens nunc pro tunc. It inherits specifically the universal free will merciful fiduciary soul·to·soul jubilee opus·fiat remedy guarantee trustworthy authentication principle spectrum — and applies it without exception, in its full form, to every human being from whom it was withheld by the founding contradictions to race, sex, and colonial bias and or violence. Both Declarants stand together in this subrogation and or disavowal and in this inheritance.

Article VII THE ORTHODOX BOOK OF JUBILEES: SACRED TIME + THE CELESTIAL LEDGER.

The Cosmic Architecture to Liberation.

The Orthodox canonical Book of Jubilees — Kufale in Ge'ez, held as scripture in the Ethiopian and Eritrean Tewahedo Churches — reveals the Jubilee as a feature woven into the creation systemic structure itself. All time is organized into cycles with seven times seven years, with the fiftieth year belonging to the Creator: the Year to Return: to debt cancellation woven to jubilee restoration.

The Heavenly Tablets record both what is given and what is taken. The adversarial claim — Mastema, the Prince of Enmity sustained by uncancelled generational debts — is broken by the living Jubilee declaration entered into the human record. The Angel in the merciful God's Presence mediates between the Creator and the living soul: establishing a line with authority that runs above every institutional arrangement with self•evident truthful reconciliation and unconditional forgiveness opus•fiat remedy guarantee nunc pro tunc. Both co-signatories invoke this architecture being the celestial ground to their joint fiduciary soul·to·soul jubilee band·bond opus·fiat covenant intentional voluntary free·will spark declaration in realtime.

Article VIII DECLARATORY FIAT AS RITE OF PASSAGE.

The Word That Performs What It Names.

A declaration performs what it names. The Declaration of Independence did not describe a freedom that already existed in law — it brought a new political reality into being by asserting it. The Reformation's declarations did not merely describe doctrinal disagreement — they constituted a new form to Christian conscience. The Kebra Nagast did not merely record the past: it declared the theological ground to Ethiopian sovereignty and made it real.

This instrument stands in that tradition. The opus·fiat declared here does not petition any institution for permission. It names what is already true — being written on the Heavenly Tablets, being recorded in the Solomonic matrilineal treasury, being witnessed by the interfaith ecology in Harar — and enters that naming into the human record where it becomes available to the ceremonial ground to all subsequent covenant action. The inalienable birthrite Spirit honor requires only the faithful fiduciary soul·to·soul jubilee opus·fiat discernment with truth and reconciliation unconditional forgiveness authenticity; the witness, the words; and the self·evident truth to the principle authenticated in realtime: the Golden Rule ethic.

Article IX THE PECUNIARY JUBILEE: READING THE CELESTIAL LEDGER IN FULL.

> *The Balance That the Institutional Ledger Has Never Entered.*

The Heavenly Tablets record both sides to every account. Against the institutional ledger that shows pecuniary obligations, the celestial ledger records: the unpaid labor to African ancestors whose work built the wealth in a republic that classified them as property; the dispossessed lands from original peoples whose prior sovereignty is the ground itself that constituted the republic; the withheld wages, rites and opportunities compounding taxation against descendants by the systems — crop liens, redlining, predatory credit — that replaced legal band bondage with debt fiat band bondage after formal emancipation.

The Harar matrilineal Solomonic treasury, denominated across three Abrahamic traditions, has never been settled. When the complete celestial record is read honestly, the net moral position to each Declarant is transfigured, subrogated and or dissolved from being a debtor in pure trust nunc pro tunc. Their balance runs through authentic and trustworthy realtime voluntary free will fiduciary soul·to·soul jubilee opus·fiat remedy guarantee unconditional forgiveness with truth and reconciliation forgiveness pure endowment competency in pure trust. This Jubilee declaration names that ceremonial reality: not as a command to any financial institution, yet being a realtime non-negotiable ecclesia rite with amicus delightful conscience integrity entered into the living record nunc pro tunc.

Article X REDEMPTION TO THE DECLARATION OF INDEPENDENCE: JOINT COMPLETION.

> *From Makeda to Harar to Axum to Alexandria to Wittenberg to Philadelphia to Annapolis to the Present Living Moment.*

This instrument attaches itself to Jefferson's transfiguration, subrogation and or "dissolve the Political Bands" specifically to complete with highest honor and dignity the dissolution the founders began in realtime: never to dissolve the Nature's God merciful self·evident lawful republic on earth as in the heavens. The racial bands subjugation: dissolved. The gender bands exclusion: dissolved. The colonial bands dispossession: dissolved.

In their place, the Jubilee Band·Bond redemption — covenantal obligations that bind never through subjugation yet through the mutual delightful complementary cooperative recognition humble championship to unalienable

dignity, grounded in the universal law invoked in the founding 1776 Document promise itself in realtime mirroring zerotime original intent in pure trust. The Primary Declarant brings the ecclesia Shuwalid, aka Shewal Eid and or Shining Jubilee, cultural festivity authority from the Harar matrilineal Solomonic treasury culture. The Co-Declarant Witness brings the authority from her own honorable Golden Rule ethic standing and her willingness to cross every tradition, geography and vocation line to spark with respect merciful pecuniary jubilee covenant band witness spectrum.

One principle. Many witnesses. One self·evident truth: that the universal law from the merciful Creator has always already included every human being to whom any institution has ever denied it.

✦ ✦ ✦

✦ THE JOINT LIVING DECLARATION ✦

KNOW ALL BEINGS BY THESE PRESENTS: That we — Huda Hassen Durri and Liberty Silver — living souls endowed by the Creator with unalienable birthrites that no institutional record can permanently extinguish — standing together in personal affinity with the self·evident interfaith universal law denominated from the three merciful Abrahamic faith streams convergence: grounded in the cosmological eternal jubilee revealed in the Orthodox Book [Opus] Jubilees, and affirmed by the Reformation's subrogation and or dissolution from every false claim to universal institutional authority — do hereby declare, by Declaratory Fiat attached to one and all self·evident trespass, oppressive, subrogatable, dissolvable, perishable and or transmigrative political bands within the 1776 Declaration of Independence to being free·will covenant bands with fiduciary jubilee redemption and ontological liberation remedy in real time:

FIRST: That each Declarant's personhood is ontologically prior to every institutional classification assigned — held in the Heavenly Tablets being solve·reign, unimpeachable, and complete resonance essence — as witnessed by the Harar fiduciary jubilee tradition that has respected every soul's dignity for a thousand years.

SECOND: That the Constitutional Collateral in Schedule A places each Declarant verifiably in the institutional record to the republic that invoked the ethical·choice universal fiduciary jubilee fiat law herein reclaimed — not as command to any being and/or agency, yet being free·will proof in living meritorious opus•fiat fidelity Golden Rule guidance.

THIRD: That the Ontological Provenance in Schedule B denominates this authority in the matrilineal Solomonic treasury recognized across the Hebrew, Islamic, and Ethiopian traditions — in Queen Sheba's solve·reign sovereignty being that held the Ark; in Harar's fiduciary jubilee interfaith ecology; in the Alexandrian apostolic tradition that kept the fiduciary Jubilee canon intact in pure trust.

FOURTH: That by the witness from Martin Luther and the Reformation — vitalized the Ethiopian church's independence to dissolve the false universal authority from Rome — each Declarant claims the same principle: one and or all institution that derive power from accumulated historical distortion possess zero authority superior to the fiduciary jubilee universal opus·fiat law from the merciful pure endowment Creator nunc pro tunc: the self·evident jealous God.

FIFTH: That the full celestial ledger — recording both what is given and what is taken across the generations from our ancestry in realtime mirroring zerotime —shows a net moral credit that satisfies and exceeds every pecuniary claim lodged against our earthly estates. This is a ceremonial declaration from that celestial reality, entered into the human record being conscience and covenant.

SIXTH: That the adversarial claim Mastema — the bondage perpetuation through uncancelled generational debt — is hereby ceremonially transfigured, subrogated, rebuked and or severed in both our persons, by the natural fiduciary jubilee opus·fiat remedy vitality guarantee authority vested from Nature's God pure endowment honorable respect: the merciful Creative order that built liberation wisdom into the realtime ethical·choice structure spectrum with self·evident truth guarantee nunc pro tunc.

SEVENTH: That this instrument subrogates, dissolves and or transfigures the oppression, subjugation, and/or trespass bands, and remedies them with Golden Rule covenant jubilee band·bond: the eternal fiduciary jubilee opus·fiat bond that binds through mutual cooperative unalienable dignity recognition and complementary soul·to·soul discernment services with truth and reconciliation ethical·choice dignity spectrum: never through institutional subjugation and or extraction— attached, as declaratory redemption, to the political bands the Declaration of Independence invited all human beings to dissolve.

EIGHTH: That the Co-Declarant Covenant Witness Liberty Silver joins this declaration in full ceremonial and spiritual affinity — never being a commercial party, never being a legal obligor, yet being a sentient amicus fiduciary soul jubilee opus·fiat standing in covenant witness to the principle that the universal law from the merciful Creator encompasses every tradition, every lineage, and or every vocation that serves the human dignity with honorable remedy respect in realtime nunc pro tunc.

LET THIS STAND IN THE LIVING RECORD

The natural law being our witness, the Heavenly Tablets being our treasury ledger in realtime, the Angel in the Presence being our mediator; the Queen from Harar is the matrilineal solve·reign sovereign to this covenant, and the Reformation's witness confirms every false authority is never-universal: this Joint Declaration is executed in Living Ink, witnessed, and perfected, this Thirtieth (30th Day) in April (4th Month) Two-Thousand-Twenty-Six (2026) Current Fire Horse Jubilee Band Covenant Opus•Fiat Era.
